Hey Dave – Please see my notes below is red.

Just got out of a meeting with Michael and a brief call with Karl so I've added a little more detail.

Subject: Interim Remedy scope clarifications

Hi Jen & Beth,

I wanted to clarify the support for the briefing meetings/webinars/calls needed. Let me know if our collective understanding outlined below is correct.

Support materials for the series of briefings will include developing 2 presentations – one high level mostly for mgmt, one more technical to be presented to other groups

Support will include briefing participation/attendance as outlined below.

1. Initial briefing for CSTAG (Karl Gustafson & Matt Lambert) via teleconference call/Webinar Presentation – heavy participation by HDR. I would also suggest participation by Keegan Roberts at this briefing. This will be scheduled for the afternoon of Dec 4th. I will ask CPG to provide their presentation materials no later than

11.27 so that our team can review the week of 11/27 and incorporate our supplemental material. I would like Ed, James, Aaron, and Keegan to be on the call.

2. Initial briefing to Partner Agencies (NJDEP, NOAA, FWS) via teleconference call/Webinar Presentation – lighter participation by HDR. I would also suggest participation by Aaron or Scott at this briefing. Assume just one combined event. Will target week of Dec 4th or Dec 11th for this meeting. This will likely be in Edison, with a conference line open for anyone who can't join in person. Will look for Aaron, Ed, James, Scott, and Dan Cooke to attend.
3. Follow-up face-to-face meeting for entire CSTAG (maybe bey year end or early January – heavy participation by HDR; again I would also suggest participation by Keegan Roberts. This will be later on – current thinking is mid to late February
4. No participation at the EPA upper management meeting will be needed.

We will not plan on any meetings with the CPG before the end of the year.

Ed/James,

Did you get the clarifications you needed for the interim remedy scope today? We had planned to speak after the weekly call, but I have been pulled into other unexpected calls/fires. We need to get your revised proposal tomorrow, so if we have any questions, need to ask EPA/USACE early tomorrow (if not now).

In any case, I would like to talk to you guys so we are on the same page. Are you available at 10:00AM?
